

CENTAUR TOTAL RETURN FUND
A series of Centaur Mutual Funds Trust

Supplement to the Summary Prospectus, Statutory Prospectus and the Statement of Additional Information, each dated February 28, 2019

This supplement to the Summary Prospectus, Statutory Prospectus and Statement of Additional Information each dated February 28, 2019, for the Centaur Total Return Fund (the "Fund"), a series of the Centaur Mutual Funds Trust (the "Trust"), updates the information described below. For further information, please contact the Fund toll-free at 1-888-484-5766. You may also obtain additional copies of the Fund's Summary Prospectus, Statutory Prospectus, and Statement of Additional Information, free of charge, by writing to the Fund c/o Ultimus Fund Solutions, LLC at P.O. Box 46707, Cincinnati, Ohio 45246-0707, by calling the Fund toll-free at the number above or by visiting the Fund's website at <http://www.dcmmutualfunds.com>.

Approval of New Investment Advisory Agreement

On March 7, 2019, at a Special Meeting of the Shareholders of the Fund, the shareholders approved a new investment advisory agreement between the Trust, on behalf of the Fund, and DCM Advisors, LLC ("DCM"), a Delaware limited liability company, registered as an investment adviser under the Investment Advisers Act of 1940, as amended.

Changes to the Summary Prospectus and Statutory Prospectus

The following replaces the fee table and expense example that follows the heading "Fees and Expenses of the Fund" on page 1 of the Summary Prospectus and "Summary – Fees and Expenses of the Fund" on page 2 of the Statutory Prospectus:

Shareholder Fees

(fees paid directly from your investment)

Maximum Sales Charge (Load) Imposed On Purchases (as a percentage of offering price)	None
--	------

Annual Fund Operating Expenses

(expenses that you pay each year as a % of the value of your investment)

Management Fees ¹	0.75%
Distribution and/or Service (12b-1) Fees	None
Other Expenses	1.06%
Acquired Fund Fees and Expenses ²	0.14%
Total Annual Fund Operating Expenses	1.95%
Fee Reductions and/or Expense Reimbursements ³	(0.31%)
Total Annual Fund Operating Expenses After	
Fee Reductions and/or Expense Reimbursements ³	1.64%

¹ Effective as of March 7, 2019, the management fee was reduced from 1.50% to 0.75%. The expense information in the table has been restated to reflect the current management fee.

- 2 “Total Annual Fund Operating Expenses” and “Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements” will not correlate to the ratios of expenses to the average net assets in the Fund’s Financial Highlights, which reflect the operating expenses of the Fund and do not include “Acquired Fund Fees and Expenses.”
- 3 Effective as of March 7, 2019, DCM Advisors, LLC (the “Advisor”) has entered into an Expense Limitation Agreement with the Fund under which it has agreed to reduce the amount of the investment advisory fees to be paid to the Advisor by the Fund and to assume other expenses of the Fund, if necessary, in an amount that limits the Fund’s annual operating expenses (exclusive of interest, taxes, brokerage commissions, other expenditures which are capitalized in accordance with generally accepted accounting principles, other extraordinary expenses not incurred in the ordinary course of the Fund’s business, dividend expense on securities sold short, “acquired fund fees and expenses,” and amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the Investment Company Act of 1940, as amended (“1940 Act”)) to not more than 1.50% of the average daily net assets of the Fund for the period ending February 28, 2021. The Expense Limitation Agreement may not be terminated prior to that date without the approval of the Board of Trustees of Centaur Mutual Funds Trust (the “Trust”). Prior to March 7, 2019, the Advisor and the Fund’s previous advisor, Centaur Capital Partners, L.P., had each entered into an Expense Limitation Agreement with the Fund with an expense cap of 1.95%. The expense information in the table has been restated to reflect the current Expense Limitation Agreement’s cap of 1.50%.

Example. This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and the Fund’s operating expenses remain the same, except that the contractual arrangement to reduce Management Fees and reimburse expenses remains in effect only until February 28, 2021. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
\$167	\$552	\$994	\$2,224

Changes to the Statutory Prospectus

The following replaces in its entirety the section entitled “Management of the Fund – Investment Advisor” on page 14 of the Prospectus:

DCM Advisors, LLC, 475 Park Avenue South, 9th Floor, New York, NY 10016 is the investment advisor for the Fund and has served in such capacity since November 16, 2018. The Advisor serves in the capacity of investment advisor to the Fund pursuant to an investment advisory agreement dated March 7, 2019 with the Trust on behalf of the Fund (the “Advisory Agreement”). Prior to shareholder approval of the Advisory Agreement on March 7, 2019, the Advisor served as investment advisor to the Fund pursuant to an Interim Investment Advisory Agreement dated November 16, 2018 (the “Interim Advisory Agreement”). Subject to the authority of the Board of Trustees of the Trust (the “Board” or “Trustees”), the Advisor provides guidance and policy direction in connection with its daily management of the Fund’s assets. The Advisor is also responsible for the selection of broker-dealers for executing portfolio transactions, subject to the brokerage policies established by the Trustees.

The Advisor, organized as a Delaware limited liability company, is controlled by Dinosaur Group Holdings, LLC. The Advisor and its affiliates have experience in managing investments for clients, including individuals, corporations, non-taxable entities, and other business and private accounts, since October 2002. The portfolio managers have managed investments for clients for a combined 70 years. Although the Advisor has experience advising clients with strategies similar to the Fund, it has not previously managed a mutual fund.

Advisor Compensation. As full compensation for the investment advisory services provided to the Fund under the Advisory Agreement, the Advisor receives monthly compensation based on the Fund's average daily net assets at the annual rate of 0.75%. Under the Interim Advisory Agreement, the Advisor received monthly compensation based on the Fund's average daily net assets at the annual rate of 1.50%. Prior to November 16, 2018, the Fund paid the Fund's previous investment advisor, Centaur Capital Partners, L.P. (the "Prior Advisor"), an investment advisory fee based on the Fund's average daily net assets at the annual rate of 1.50%. Because the Advisor assumed the role of investment advisor to the Fund effective November 16, 2018, it did not receive any investment advisory fees from the Fund during the Fund's fiscal year ended October 31, 2018. However, the net aggregate investment advisory fees paid to the Prior Advisor by the Fund for the Fund's fiscal year ended October 31, 2018 as a percentage of average net assets was 0.89%.

Expense Limitation Agreement. The Advisor has entered into an Expense Limitation Agreement with the Fund effective March 7, 2019 under which it has agreed to reduce the amount of the investment advisory fees to be paid to the Advisor by the Fund and assume other expenses of the Fund, if necessary, in an amount that limits "Total Annual Fund Operating Expenses" (exclusive of interest, taxes, brokerage commissions, other expenditures which are capitalized in accordance with generally accepted accounting principles, other extraordinary expenses not incurred in the ordinary course of the Fund's business, dividend expense on securities sold short, "acquired fund fees and expenses," and amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the 1940 Act) to not more than 1.50% of the average daily net assets of the Fund for the period ending February 28, 2021. The Fund or the Advisor may terminate the Expense Limitation Agreement at the end of the then-current term upon not less than 90-days' written notice as set forth in the Expense Limitation Agreement. Prior to March 7, 2019, the Advisor contractually agreed to limit Total Annual Fund Operating Expenses to an amount not exceeding 1.95% under an Interim Expense Limitation Agreement. In addition, prior to November 16, 2018, the Prior Advisor contractually agreed to limit Total Annual Fund Operating Expenses to an amount not exceeding 1.95%.

The following updates the paragraph in its entirety, under the Section "Additional Information" on page 27 of the Prospectus:

By mail: Centaur Mutual Funds Trust
c/o Transfer Agency
P.O. Box 46707
Cincinnati, OH 45246-0707

Changes to the Statement of Additional Information

The following replaces in its entirety the eighth paragraph in the section entitled "Portfolio Transactions" on page 17 of the Statement of Additional Information:

Under Section 28(e) of the Securities Exchange Act of 1934 and the Fund's investment advisory agreement with the Advisor (the "Advisory Agreement"), the Advisor is authorized to pay a brokerage commission in excess of that which another broker might have charged for effecting the same transaction, in recognition of the value of brokerage and/or research services provided by the broker. The research received by the Advisor may include, without limitation: information on the United States and other world economies; information on specific industries, groups of securities, individual companies, political and other relevant news developments affecting markets and specific securities; technical and quantitative information about markets; analysis of proxy proposals affecting specific companies; accounting and performance systems that allow the Advisor to determine and track investment results; and trading systems that allow the Advisor to interface electronically with brokerage firms, custodians and other providers. Research may be received in the form of written reports, telephone contacts, personal meetings, research seminars, software programs and access to computer databases. In some instances, research products or services received by the Advisor may also be used by the Advisor for functions that are not research related (i.e., not related to the making of investment decisions). Where a research product or service has a mixed use, the Advisor will make a reasonable allocation according to its use and will pay for the non-research function in cash using its own funds. The research and investment information services described above make available to the Advisor for its analysis and consideration the views and information of individuals and research staffs of other securities firms. These services may be useful to the Advisor in connection with advisory clients other than the Fund and not all such services may be useful to the Advisor in connection with the Fund. Although such information may be a useful supplement to the Advisor's own investment information in rendering services to the Fund, the value of such research and services is not expected to materially reduce the expenses of the Advisor in the performance of its services under the Advisory Agreement and will not reduce the management fees payable to the Advisor by the Fund.

The following replaces in its entirety the section entitled "Management and Other Service Providers - Investment Advisor" on page 27 of the SAI:

Investment Advisor. DCM Advisors, LLC has been the investment advisor for the Fund since November 16, 2018. Information about the Advisor, located at 475 Park Avenue South, 9th Floor, New York, NY 10016, and its duties and compensation as Advisor, is contained in the Prospectus. The Advisor supervises the Fund's investments pursuant to the Advisory Agreement. The Advisor is controlled by Dinosaur Group Holdings, LLC. The Advisory Agreement is effective for a two-year period and may be renewed for additional one-year periods only so long as such renewal and continuance is specifically approved at least annually by the Trustees, provided the continuance is also approved by a majority of the Trustees who are neither parties to the Advisory Agreement nor interested persons of any such party, or by vote of a majority of the Fund's outstanding voting securities. The Advisory Agreement is terminable without penalty on 60-days' notice by the Trustees or by vote of a majority of the outstanding voting securities of the Fund or by the Advisor. The Advisory Agreement provides that it will terminate automatically in the event of its "assignment," as such term is defined in the 1940 Act.

The Advisor manages the Fund's investments in accordance with the stated policies of the Fund, subject to the approval of the Trustees. The Advisor is responsible for investment decisions and provides the Fund with two portfolio managers who are authorized by the Trustees to execute purchases and sales of securities. Dr. Vijay Chopra and Gregory Serbe are responsible for the day-to-day management of the Fund's portfolio.

Under the Advisory Agreement, the Advisor is not liable for any error of judgment or mistake of law or for any loss suffered by the Fund in connection with the performance of such Agreement, except: a loss resulting from a breach of fiduciary duty with respect to the receipt of compensation for services; a loss resulting from willful misfeasance, bad faith, or gross negligence on the part of the Advisor in the performance of its duties; or a loss resulting from the Advisor's reckless disregard of its duties and obligations under the Agreement.

For its services, the Fund pays the Advisor an advisory fee equal to an annualized rate of 0.75% of the average daily net assets of the Fund, calculated as of the last business day of each month and paid within 15 days thereafter. In addition, the Advisor and the Fund have entered into an Expense Limitation Agreement under which the Advisor has agreed to reduce the amount of the investment advisory fees to be paid to the Advisor by the Fund and assume other expenses of the Fund through the period ending February 28, 2021, if necessary, in an amount that limits "Total Annual Fund Operating Expenses" (exclusive of interest, taxes, brokerage commissions, other expenditures which are capitalized in accordance with generally accepted accounting principles, other extraordinary expenses not incurred in the ordinary course of the Fund's business, dividend expenses on securities sold short, "acquired fund fees and expenses, and amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the 1940 Act) to not more than 1.50% of the average daily net assets of the Fund for any fiscal year. The Fund or the Advisor may terminate the Expense Limitation Agreement at the end of the then-current term upon not less than 90-days' notice to the Trust as set forth in the Expense Limitation Agreement. Prior to March 7, 2019, the Fund paid the Advisor under the Interim Advisory Agreement an advisory fee equal to an annualized rate of 1.50% of the average daily net assets of the Fund, calculated as of the last business day of each month and paid within 15 days thereafter. In addition, the Advisor and the Fund had entered into an Interim Expense Limitation Agreement under which the Advisor agreed to reduce the amount of the investment advisory fees to be paid to the Advisor by the Fund and assume other expenses of the Fund through the period ending February 28, 2020, if necessary, in an amount that limits "Total Annual Fund Operating Expenses" (exclusive of interest, taxes, brokerage commissions, other expenditures which are capitalized in accordance with generally accepted accounting principles, other extraordinary expenses not incurred in the ordinary course of the Fund's business, dividend expenses on securities sold short, "acquired fund fees and expenses, and amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the 1940 Act) to not more than 1.95% of the average daily net assets of the Fund for any fiscal year. Both the Interim Advisory Agreement and the Interim Expense Limitation expired upon shareholder approval of the Advisory Agreement on March 7, 2019. The Fund did not pay any advisory fees to the Advisor during the fiscal year ended October 31, 2018.

Prior to the Advisor becoming the investment advisor to the Fund on November 16, 2018, the Fund paid Centaur Capital Partners, L.P., the Fund's previous investment advisor (the "Prior Advisor"), an advisory fee equal to an annualized rate of 1.50% of the average daily net assets of the Fund. In addition, the Prior Advisor had entered into an expense limitation agreement with the Fund under which the Prior Advisor had agreed to reduce the amount of the investment advisory fees to be paid to the Prior Advisor by the Fund and assume other expenses of the Fund in an amount that limited Total Annual Fund Operating Expenses (exclusive of interest, taxes, brokerage commissions, other expenditures which are capitalized in accordance with generally accepted accounting principles, other extraordinary expenses not incurred in the ordinary course of the Fund's business, dividend expenses on securities sold short, "acquired fund fees and expenses, and amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the 1940 Act) to an amount not exceeding 1.95% of the average daily net assets of the Fund for any fiscal year. For the Fund fiscal year ended October 31, 2018, the Prior Advisor earned fees in the amount of \$391,490, before advisory fee waivers and/or expense reimbursement of \$158,834. For the Fund's fiscal year ended October 31, 2017, the Prior Advisor earned fees in the amount of \$389,560 before management fee waivers and/or expense reimbursements in the amount of \$155,058. For the Fund's fiscal year ended October 31, 2016, the Prior Advisor earned fees in the amount of \$409,804 before management fee waivers and/or expense reimbursements in the amount of \$235,442.

Investors Should Retain this Supplement for Future Reference

Summary Prospectus | February 28, 2019

Before you invest, you may want to review the Fund's Prospectus and Statement of Additional Information, which contain more information about the Fund and its risks. You can find the Fund's Prospectus, Statement of Additional Information and other information about the Fund online at <http://www.DCMmutualfunds.com>. You can also get this information at no cost by calling 1-888-484-5766 or by sending an e-mail request to Fulfillment@ultimusfundsolutions.com. The Fund's Prospectus and Statement of Additional Information, dated February 28, 2019, are incorporated by reference into this Summary Prospectus.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Funds' shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting the Fund at 1-888-484-5766 or, if you own these shares through a financial intermediary, you may contact your financial intermediary.

You may elect to receive all future reports in paper free of charge. You can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by contacting the Fund at 1-888-484-5766. If you own shares through a financial intermediary, you may contact your financial intermediary or follow instructions included with this disclosure to elect to continue to receive paper copies of your shareholder reports. Your election to receive reports in paper will apply to all funds held with the Fund complex or at your financial intermediary.

Investment Objective. The Centaur Total Return Fund ("Fund") seeks maximum total return through a combination of capital appreciation and current income.

Fees and Expenses of the Fund. This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees

(fees paid directly from your investment)

Maximum Sales Charge (Load) Imposed On Purchases (as a percentage of offering price)	None
--	------

Annual Fund Operating Expenses

(expenses that you pay each year as a % of the value of your investment)

Management Fees	1.50%
Distribution and/or Service (12b-1) Fees	None
Other Expenses	1.06%
Acquired Fund Fees and Expenses ¹	0.14%
Total Annual Fund Operating Expenses	2.70%
Fee Reductions and/or Expense Reimbursements ²	(0.61%)
Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements ³	2.09%

¹ "Total Annual Fund Operating Expenses" and "Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements" will not correlate to the ratios of expenses to the average net assets in the Fund's Financial Highlights, which reflect the operating expenses of the Fund and do not include "Acquired Fund Fees and Expenses."

² Effective November 16, 2018, DCM Advisors, LLC (the "Advisor") entered into an Interim Expense Limitation Agreement with the Fund (the "Interim Expense Limitation Agreement") under which it has agreed to reduce the amount of the investment advisory fees to be paid to the Advisor by the Fund and to assume other expenses of the Fund, if necessary, in an amount that limits the Fund's annual operating expenses (exclusive of interest, taxes, brokerage commissions, other expenditures which are capitalized in accordance with generally accepted accounting principles, other extraordinary expenses not incurred in the ordinary course of the Fund's business, dividend expense on securities sold short, "acquired fund fees and expenses," and amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the Investment Company Act of 1940, as amended ("1940 Act")) to not more than 1.95% of the average daily net assets of the Fund for the period ending February 28, 2020. The Interim Expense Limitation Agreement may not be terminated prior to that date without the approval of the Board of Trustees of Centaur Mutual Funds Trust (the "Trust"). The Interim Expense Limitation Agreement will terminate automatically if the Fund's investment advisory agreement with the Advisor is terminated.

Example. This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and the Fund's operating expenses remain the same, except that the contractual arrangement to reduce Management Fees and reimburse expenses remains in effect only until February 28, 2020. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
\$212	\$781	\$1,376	\$2,987

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when the Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 142% of the average value of its portfolio.

Principal Investment Strategies. The Fund invests in equity securities of companies that the Advisor believes are undervalued in the securities markets, but which also offer high dividend yields relative to the yield of the broad market averages such as the S&P 500 Total Return Index. The Fund typically invests in common stocks and other equity securities, which may include securities issued by real estate investment trusts (REITs), publicly traded master limited

partnerships (MLPs) or royalty trusts, as well as preferred stocks, convertible bonds, convertible preferred stocks, and warrants.

In addition to investing in equity securities that offer high dividend yields, the Advisor may seek to generate income from selling covered call options on securities in the Fund. The use of covered call options in combination with the purchase of equity securities allows for the inclusion of undervalued, non-dividend paying stocks in the Fund's portfolio while still satisfying the Fund's goal of generating investment income. Securities so purchased will be selected based upon the Advisor's determination of the attractiveness and risk profile of the underlying stock as well as the income potential of selling covered call options on the security. The Advisor may seek to use the above strategies to structure the Fund's investment portfolio in such a way as to seek to achieve an income yield superior to that of the S&P 500 Total Return Index. The Fund may also invest in non-dividend paying stocks without selling covered call options if the Advisor believes the stocks can produce significant capital appreciation.

At the discretion of the Advisor, the Fund may allocate its capital to bonds and short-term instruments. The Fund may purchase bonds of any credit quality, maturity, or yield. The Fund may invest in investment-grade fixed income securities and securities that are below investment-grade (i.e., "junk bonds") or short-term, highly liquid investments, such as money market instruments, U.S. government obligations, commercial paper, repurchase agreements, and other cash or cash equivalent positions. The Fund primarily invests in securities of U.S. companies, but may also invest in foreign companies.

The Advisor will vary the percentage of the Fund's assets allocated to each of the above categories based on the Advisor's judgment of the attractiveness of available investment opportunities as well as market and economic conditions.

To select equity securities for the Fund, the Advisor seeks to identify companies that it understands well and that possess one or more of the following characteristics:

- Positive (or projected positive) revenue or profit trends;
- Healthy balance sheet, characterized by ample cash relative to debt, efficient working capital management, high or increasing liquidity, or other metrics that the Advisor believes indicate the company's ability to withstand unexpected shocks, reinvest in the business, and improve its business prospects and circumstances;
- Strong free cash flow generation;
- Powerful and sustainable competitive advantages;
- Management team that: (i) operates the business well and has a sound strategy to build it over time; (ii) allocates capital wisely to enhance shareholder value; and (iii) has high integrity; or
- Policies (e.g., compensation structures) that do not significantly dilute shareholders' ownership.

In addition to the above criteria the Advisor will consider high dividend yields when selecting stocks. The Advisor seeks to identify companies whose stocks are trading, in the opinion of the Advisor, at a substantial discount to the intrinsic value, however, the Advisor may select stocks

with a somewhat modest discount to the Advisor's estimate of intrinsic value if the Advisor believes that the security's dividend yield is sufficiently high, secure, and/or likely to grow over time.

In selecting bonds for the Fund, the Advisor examines the relationships of current yield and risk of the bonds as compared to available equity securities.

- **Principal Risks of Investing in the Fund.** An investment in the Fund is subject to investment risks, including the possible loss of some or all of the money invested. There can be no assurance that the Fund will be successful in meeting its investment objective. Generally, the Fund will be subject to the following additional principal risks:
 - **Market Risk.** The prices of and the income generated by the Fund's securities may decline in response to, among other things, investor sentiment, general economic and market conditions, regional or global instability, and currency and interest rate fluctuations.
 - **Management Style Risk.** The performance of the Fund may be better or worse than the performance of stock funds that focus on other types of stocks or have a broader investment style.
 - **Sector Focus Risk.** The Fund may, at times, be more heavily invested in certain sectors, which may cause the value of its shares to be especially sensitive to factors and economic risks that specifically affect those sectors and may cause the Fund's share price to fluctuate more widely than the shares of a mutual fund that invests in a broader range of industries.
 - **Foreign Securities Risk.** Foreign securities may involve investment risks different from those associated with domestic securities. Foreign markets, particularly emerging markets, may be less liquid, more volatile, and subject to less government supervision than domestic markets. There may also be difficulties enforcing contractual obligations, and it may take more time for trades to clear and settle. Adverse political and economic developments or changes in the value of foreign currency can make it difficult for the Fund to sell its securities and could reduce the value of your shares.
 - **Credit Risk.** Credit risk is the risk that the issuer or guarantor of a debt security or counterparty to the Fund's transactions will be unable or unwilling to make timely principal and/or interest payments, or otherwise will be unable or unwilling to honor its financial obligations. If the issuer, guarantor, or counterparty fails to pay interest, the Fund's income may be reduced. If the issuer, guarantor, or counterparty fails to repay principal, the value of that security and of the Fund's shares may be reduced.
 - **Interest Rate Risk.** The price of a bond or a fixed income security is dependent upon interest rates. Therefore, the share price and total return of the Fund, when investing a significant portion of its assets in bonds or fixed income securities, will vary in response to changes in interest rates. Changes in interest rates may have a significant effect if the Fund is then holding a significant portion of its assets in fixed income securities with long-term maturities. The Fund

may be subject to greater risk of rising interest rates due to the current historically low interest rates and the Federal Reserve's willingness to allow interest rates to rise, if only gradually and moderately.

- **Maturity Risk.** In general, the longer the maturity of a debt obligation, the higher its yield and the greater its sensitivity to changes in interest rates. Conversely, the shorter the maturity, the lower the yield, but the greater the price stability.
- **Investment-Grade Securities Risk.** Securities rated BBB by S&P Global Ratings ("S&P") or Fitch Ratings, Inc. ("Fitch") or Baa by Moody's Investors Service, Inc. ("Moody's") or higher are considered investment-grade securities. While the Fund may invest in various rated investment grade securities, including securities rated Baa by Moody's or BBB by S&P or Fitch, such securities are somewhat riskier than more highly rated investment-grade debt obligations and will be subject to higher credit risk and may be subject to greater fluctuations in value than higher-rated securities.
- **Junk Bonds or Lower-Rated Securities Risk.** Debt securities rated below BBB by S&P or Fitch and Baa by Moody's are considered speculative in nature and may be subject to certain risks with respect to the issuing entity and to greater market fluctuations than higher rated fixed income securities. These fixed income securities are considered "below investment-grade." The retail secondary market for these "junk bonds" may be less liquid than that of higher-rated securities and adverse conditions could make it difficult at times to sell certain securities or could result in lower prices than those used in calculating the Fund's net asset value ("NAV"). These risks can reduce the Fund's share prices and the income it earns.
- **Derivative Instruments Risk.** Derivative instruments involve risks different from direct investments in the underlying securities, including: imperfect correlation between the value of the derivative instrument and the underlying assets; risks of default by the other party to the derivative instrument; risks that the transactions may result in losses of all or in excess of any gain in the portfolio positions; and risks that the transactions may not be liquid.
- **Valuation Risks for Non-Exchange Traded Options.** The purchase of non-exchange traded call options may result in reduced liquidity (and hence value) for the Fund's portfolio investments.
- **Risks from Writing Call Options.** When the Fund writes (i.e., sells) call options on its portfolio securities it limits its opportunity to profit from the securities and, consequently, the Fund could significantly underperform the market. Writing call options could also result in additional turnover and higher tax liability.
- **Real Estate Securities Risk.** To the extent the Fund invests in companies that invest in real estate, such as REITs, the Fund may be subject to risk associated with the real estate market as a whole such as taxation, regulations, and economic and political factors that negatively impact the real estate market.
- **MLP Risks.** A MLP is a limited partnership in which the ownership units are publicly traded. MLPs generally

acquire interests in natural resource, energy, or real estate assets and distribute the resulting income to investors. Investments in MLPs are generally subject to many of the risks that apply to investments in partnerships, such as limited control and limited voting rights and fewer corporate protections than afforded investors in a corporation. MLPs that concentrate in a particular industry or region are subject to risks associated with such industry or region. Investing in MLPs also involves certain risks related to investing in the underlying assets of the MLPs and risks associated with pooled investment vehicles, such as adverse economic conditions, an increase in the market price of the underlying commodity, higher taxes or other regulatory actions that increase costs, a shift in consumer demand or conflicts of interest with the general partner. The benefit derived from the Fund's investment in MLPs is largely dependent on the MLPs being treated as partnerships for federal income tax purposes, so any change to this status would adversely affect its value. The Fund's investment in MLPs may result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the MLP's operating expenses in addition to paying Fund expenses.

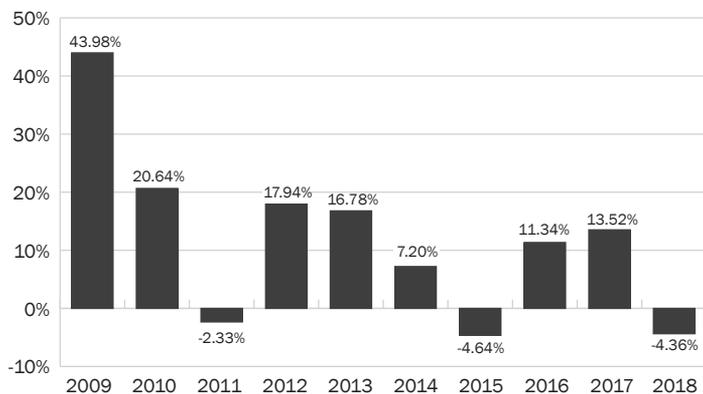

- **Royalty Trust Risks.** The Fund may invest in publicly traded royalty trusts. Royalty trusts are special purpose vehicles organized as investment trusts created to make investments in operating companies or their cash flows. A royalty trust generally acquires an interest in natural resource companies and distributes the income it receives to the investors of the royalty trust. A sustained decline in demand for the royalty trust's underlying commodity could adversely affect income and royalty trust revenues and cash flows. Factors that could lead to a decrease in market demand include a recession or other adverse economic conditions, an increase in the market price of the underlying commodity, higher taxes or other regulatory actions that increase costs, or a shift in consumer demand for such products. A rising interest rate environment could adversely impact the performance of royalty trusts. Rising interest rates could limit the capital appreciation of royalty trusts because of the increased availability of alternative investments at more competitive yields. Further, because natural resources are depleting assets, the income-producing ability of a royalty trust will eventually be exhausted and the royalty trust will need to raise or retain funds to make new acquisitions to maintain its value. The Fund's investment in royalty trusts may result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the royalty trusts' operating expenses in addition to paying Fund expenses.
- **Risks Related to Other Equity Securities.** In addition to common stocks, the equity securities in the Fund's portfolio may include preferred stocks, convertible preferred stocks, convertible bonds, and warrants. Like common stocks, the value of these equity securities may fluctuate in response to many factors, including the activities of the issuer, general market and economic conditions, interest rates, and specific industry changes. Also, regardless of any one company's particular prospects, a declining stock market may produce a decline in prices for all equity securities,

including securities held by the Fund, which could also result in losses for the Fund. Convertible securities entitle the holder to receive interest payments or a dividend preference until the security matures, is redeemed, or the conversion feature is exercised. As a result of the conversion feature, the interest rate or dividend preference is generally less than if the securities were non-convertible. Warrants entitle the holder to purchase equity securities at specific prices for a certain period of time. The prices do not necessarily move parallel to the prices of the underlying securities and the warrants have no voting rights, receive no dividends, and have no rights with respect to the assets of the issuer.

- Risks Related to Portfolio Turnover.** Portfolio turnover is a ratio that indicates how often the securities in a mutual fund's portfolio change during a year's time. Higher numbers indicate a greater number of changes, and lower numbers indicate a smaller number of changes. High rates of portfolio turnover could lower performance of the Fund due to increased costs and may also result in the realization of capital gains. If the Fund realizes capital gains when it sells its portfolio investments, it must generally distribute those gains to shareholders, increasing their taxable distributions. High rates of portfolio turnover in a given year would likely result in short-term capital gains and shareholders would be taxed on short-term capital gains at ordinary income tax rates. Under normal circumstances, the anticipated portfolio turnover rate for the Fund is expected to be more than 100%.

- Performance Information.** The bar chart and table shown below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual total returns for 1, 5 and 10 years compare to those of a broad-based securities market index. A second broad-based index is also included to provide an additional comparison. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated information on the Fund's results can be obtained by calling 1-888-484-5766 or by visiting <http://www.dcmmutualfunds.com>.

Annual Total Returns

The Fund's year to date return through December 31, 2018 was -4.36%.

During the periods shown in the bar chart, the highest return for a quarter was 18.79% during the quarter ended September 30, 2009 and the lowest return for a quarter was -13.29% during the quarter ended September 30, 2011.

Average Annual Total Returns For the Period Ended December 31, 2018			
	1 Year	5 Years	10 Years
Return before taxes	-4.36%	4.33%	11.19%
Return after taxes on distributions	-7.83%	1.55%	8.55%
Return after taxes on distributions and sale of shares	-0.89%	2.55%	8.29%
S&P 500 Total Return Index (reflects no deduction for fees, expenses, or taxes)	-4.38%	8.49%	13.12%
Dow Jones U.S. Select Dividend Total Return Index (reflects no deduction for fees, expenses, or taxes)	-5.94%	8.49%	12.26%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown and are not applicable to investors who hold Fund shares through tax-deferred arrangements such as a 401(k) plan or an individual retirement account ("IRA").

The Dow Jones U.S. Select Dividend Total Return Index is a widely recognized unmanaged index which is generally considered to be representative of the performance of dividend-paying stocks in the United States securities markets.

Management. DCM Advisors, LLC is the investment advisor for the Fund. Dr. Vijay Chopra (Senior Portfolio Manager at the Advisor) and Gregory Serbe (Senior Portfolio Manager at the Advisor) are the portfolio managers for the Fund and as such are primarily responsible for the day-to-day management of the Fund's portfolio. They have served in that capacity since November 16, 2018.

Purchase and Sale of Fund Shares. The Fund's minimum initial investment is \$1,500 (\$1,000 under an automatic investment plan) and the Fund's minimum subsequent investment is \$100 (\$50 under an automatic investment plan).

- by telephone at 1-888-484-5766; and
- through authorized Broker-Dealers and Financial Intermediaries.

Tax Information. The Fund's distributions will generally be taxed to you as ordinary income or capital gains, unless you are investing through a tax deferred arrangement, such as a 401(k) plan or an IRA. Such tax deferred arrangements may be taxed later upon withdrawals of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries.

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
